

# Andrea Faggin

Web developer & a bit of IT

---

## Experience

**2021 - Current**

Technical Lead @ we-go

Full stack development of customised projects, creative / immersive landing pages, and corporate-oriented web applications, with API integrations of management systems, PIM, CRM, and headless e-commerce platforms.

I work closely with the UX/UI team on tweaking and optimising the design, and with SEO and ADV on post-launch performance optimisation.  
I also manage deployment procedures, architecture, and monitoring of the company's cloud infrastructure.

**2020**

Frontend dev @ prima.it

Development of website interface components, and maintenance of components within the registered user area as part of the definition of the new corporate design system.

**2016 - 2021**

Web developer @ develon

Development and maintenance of corporate portals, with system integration of services with high reliability and performance requirements.

Development of customer and back-office interfaces for the SaaS version of an event booking service.  
Contribution as DevOps for CI/CD management on Google Cloud.

---

## Education

**2016**

@ Università degli Studi di Padova

Bachelor degree in Computer Science

---
